

Monday, September 25, 2023, 1 – 4:30 PM  
Imin Conference Center, East-West Center, East-West Road, Honolulu, HI 96822  
Website: [TBD]

The Hawaii Materials Symposium will be a half-day event in September 2023 bringing together members of the Hawaii community around the topic of materials science and engineering (MSE).

Goals of this event:

1. Connect employers, community members, students, professors, and other researchers who work in MSE.
2. Gauge need and demand for a more formal materials education program at the University of Hawaii, and clarify workforce training needs in MSE.
3. Establish connections with employers for further engagement in topics related to materials, through a professional organization, participation in an advisory board, internship connections for UH students, or through other means.
4. Highlight materials-related activities and facilities at UH Mānoa, particularly through showcasing student research.

The event will be hosted by the UH Mānoa College of Engineering and the School of Ocean and Earth Sciences and Technology (SOEST).

1:00 PM	Kickoff introduction
1:15	Keynote address: <a href="#">Dr. Todd Osman</a> , Executive Director of the Materials Research Society
1:45	break
2:00	Panel discussion – Materials workforce in Hawaii and the world
3:00	break
3:15	Student poster session
4:15	Closing thoughts
4:30	End of event

Please register using the Google form at the following link if you are interested to attend: <https://forms.gle/swxpofqUwQMvLTTa9>

Free

Visitor parking is available on the UH Mānoa campus off Correa Rd. behind the Kennedy Theater or in the Dole St. parking structure.
